The Places Where Community Is Practiced Anna Steigemann, 2019-02-25 In this open access publication, the social cohesion of urban neighborhoods and their residents is examined, which is often viewed as vulnerable since increased mobility, individualization, wider socio-economic and demographic changes have fundamentally altered the basis for everyday social interaction in urban neighborhoods. Anna Steigemann gives scholarly attention to the concrete places where neighborly interactions still take place and to how these interactions affect local community building. She illuminates and explores the ordinary everyday interactions and social practices in and around shops and gastronomic facilities on a shopping street in Berlin-Neukölln, revealing how these businesses are important places where community is practiced, but also why they are increasingly threatened by commercial and residential gentrification.

Saving the City Richard Roberts, 2013-11 A week before the outbreak of the First World War, an acute financial crisis surged over London: the Stock Exchange closed; money markets worldwide were paralysed. Drawing on diaries, letters, memoirs, press reports, and official archives, this book tells the extraordinary, and largely unknown, story of the first true global financial crisis.

Stocks for All: People's Capitalism in the Twenty-First Century Petri Mäntysaari, 2021-12-31 Public stock markets are too small. This book is an effort to rescue public stock markets in the EU and the US. There should be more companies with publicly-traded shares and more direct share ownership. Anchored in a broad historical study of the regulation of stock markets and companies in Europe and the US, the book proposes ways to create a new regulatory regime designed to help firms and facilitate people's capitalism. Through its comparative and historical study of regulation and legal practices, the book helps to understand the evolution of public stock markets from the nineteenth century to the present day. The book identifies design principles that reflect prior regulation. While continental European company law has produced many enduring design principles, the recent regulation of stock markets in the EU and the US has failed to serve the needs of both firms and retail investors. The book therefore proposes a new set of design principles to serve contemporary societal needs.

[A History of the Trombone](#) David M. Guion, 2010 This book, the first in the American Wind Band series, is a comprehensive account of the development of the trombone, from its initial form as a 14th-century Medieval trumpet to its alterations in the 15th century; from its marginalized use in a particular Renaissance ensemble to its acceptance in various

kinds of artistic and popular music in the 19th and 20th centuries. The book is fully illustrated with more than 80 images and includes an appendix of transcriptions of selected primary source documents with translations and a comprehensive bibliography.

Words Onscreen Naomi S. Baron, 2015 Users are easily distracted by other temptations on their devices, multitasking is rampant, and screens coax us to skim rather than read in-depth. What is more, if the way we read is changing, so is the way we write. In response to changing reading habits, many authors and publishers are producing shorter works and ones that don't require reflection or close reading. In her tour through the new world of eReading, Baron weighs the value of reading physical print versus online text, including the question of what long-standing benefits of reading might be lost if we go overwhelmingly digital. She also probes how the internet is shifting reading from being a solitary experience to a social one, and the reasons why eReading has taken off in some countries, especially the United States and United Kingdom, but not others, like France and Japan.

ISIS Michael Weiss, Hassan Hassan, 2015-01-29 A revelatory look inside the world's most dangerous terrorist group.

Initially dismissed by US President Barack Obama, along with other fledgling terrorist groups, as a “jayvee squad” compared to al-Qaeda, the Islamic State of Iraq and Syria (ISIS) has shocked the world by conquering massive territories in both countries and promising to create a vast new Muslim caliphate that observes the strict dictates of Sharia law. In *ISIS: Inside the Army of Terror*, American journalist Michael Weiss and Syrian analyst Hassan Hassan explain how these violent extremists evolved from a nearly defeated Iraqi insurgent group into a jihadi army of international volunteers who behead Western hostages in slickly produced videos and have conquered territory equal to the size of Great Britain. Beginning with the early days of Abu Musab al-Zarqawi, the founder of ISIS’s first incarnation as “al-Qaeda in Iraq,” Weiss and Hassan explain who the key players are—from their elusive leader Abu Bakr al-Baghdadi to the former Saddam Baathists in their ranks—where they come from, how the movement has attracted both local and global support, and where their financing comes from. Political and military maneuvering by the United States, Iraq, Iran, and Syria have all fueled ISIS’s astonishing and explosive expansion. Drawing on original interviews with former US military officials and current ISIS fighters, the authors also reveal the internecine struggles within the movement itself, as well as ISIS’s bloody hatred of Shiite Muslims, which is generating another sectarian war in the region. Just like the one the US thought it had stopped in 2011 in Iraq. Past is prologue and America’s legacy in the Middle East is sowing a new generation of terror.

Reinventing Hollywood David Bordwell, 2017-10-02 Introduction: the way Hollywood told it -- The frenzy of five fat years; Interlude: Spring 1940: lessons from our town

Alfred Jarry Alastair Brotchie, 2015-08-21 This long-awaited biography of Alfred Jarry reconstructs a life both ubuesque and pataphysical. When Alfred Jarry died in 1907 at the age of thirty-four, he was a legendary figure in Paris—but this had more to do with his bohemian lifestyle and scandalous behavior than his literary achievements. A century later, Jarry is firmly established as one of the leading figures of the artistic avant-garde. Even so, most people today tend to think of Alfred Jarry only as the author of the play *Ubu Roi*, and of his life as a string of outlandish “ubuesque” anecdotes, often recounted with wild inaccuracy. In this first full-length critical biography of Jarry in English, Alastair Brotchie reconstructs the life of a man intent on inventing (and destroying) himself, not to mention his world, and the “philosophy” that defined their relation. Brotchie alternates chapters of biographical narrative with chapters that connect themes, obsessions, and undercurrents that relate to the life. The anecdotes remain, and are even augmented: Jarry’s assumption of the “ubuesque,” his inversions of everyday behavior (such as eating backward, from cheese to soup), his exploits with gun and bicycle, and his herculean feats of drinking. But Brotchie distinguishes between Jarry’s purposely playing the fool and deeper nonconformities that appear essential to his writing and his thought, both of which remain a vital subterranean influence to this day.

Long before Dorothy dropped in, two other girls meet in the Land of Oz. One, born with emerald green skin, is smart, fiery, and misunderstood. The other is beautiful, ambitious, and very popular. Poetics of Cinema David Bordwell,2012-11-12 Bringing together twenty-five years of work on what he has called the historical poetics of cinema, David Bordwell presents an extended analysis of a key question for film studies: how are films made, in particular historical contexts, in order to achieve certain effects? For Bordwell, films are made things, existing within historical contexts, and aim to create determinate effects. Beginning with this central thesis, Bordwell works out a full understanding of how films channel and recast cultural influences for their cinematic purposes. With more than five hundred film stills, *Poetics of Cinema* is a must-have for any student of cinema.

On the History of Film Style David Bordwell,1997 Bordwell scrutinizes the theories of style launched by various film historians and celebrates a century of cinema. The author examines the contributions of many directors and shows how film scholars have explained stylistic continuity and change.

The Rhapsodes David Bordwell,2016-04-04 Pauline Kael, Andrew Sarris, and Roger Ebert were three of America's most revered and widely read film critics, more famous than many of the movies they wrote about. But their remarkable contributions to the burgeoning American film criticism of the 1960s and beyond were deeply influenced by four earlier critics: Otis Ferguson, James Agee, Manny Farber, and Parker Tyler. Film scholar and critic David Bordwell restores to a wider audience the work of Ferguson, Agee, Farber, and Tyler, critics he calls the 'Rhapsodes' for the passionate and deliberately offbeat nature of their vernacular prose.

TV ARTS TV Valentina Valentini,2010 This title offers a fascinating look at how artists - from the 1960s to today - have responded to and approached the medium of television. TV Arts TV explores the relationship between art and television, from the 1960s to the present, and how artists from around the world have approached this powerful medium, how they have aspired to transform it, and how they have imagined other uses for it. The exhibition brings together pieces (single-channel videos and installations), experiences (direct accounts by the people involved) and reflections (documents, texts, projects) representing and explaining utopias and dystopias, the fascinating and aggressive sides to the mythical TV set.

With the Boys Gary Alan Fine,2014-12-10 What are boys like? Who is the creature inhabiting the twilight zone between the perils of the Oedipus complex and the Strum und Drang of puberty? In *With the Boys*, Gary Alan Fine examines the American male preadolescent by studying the world of Little League baseball. Drawings on three years of firsthand

observation of five Little Leagues, Fine describes how, through organized sport and its accompanying activities, boys learn to play, work, and generally be men.

Figures Traced in Light David Bordwell, 2005-03 Staging and style -- Feuillade, or, Storytelling -- Mizoguchi, or, Modulation -- Angelopoulos, or, Melancholy -- Hou, or, Constraints -- Staging and stylistics.

The Way Hollywood Tells It David Bordwell, 2006-04-10 Hollywood moviemaking is one of the constants of American life, but how much has it changed since the glory days of the big studios? David Bordwell argues that the principles of visual storytelling created in the studio era are alive and well, even in today's bloated blockbusters. American filmmakers have created a durable tradition—one that we should not be ashamed to call artistic, and one that survives in both mainstream entertainment and niche-marketed indie cinema. Bordwell traces the continuity of this tradition in a wide array of films made since 1960, from romantic comedies like *Jerry Maguire* and *Love Actually* to more imposing efforts like *A Beautiful Mind*. He also draws upon testimony from writers, directors, and editors who are acutely conscious of employing proven principles of plot and visual style. Within the limits of the classical approach, innovation can flourish. Bordwell examines how imaginative filmmakers have pushed the premises of the system in films such as *JFK*, *Memento*, and *Magnolia*. He discusses generational, technological, and economic factors leading to stability and change in Hollywood cinema and includes close analyses of selected shots and sequences. As it ranges across four decades, examining classics like *American Graffiti* and *The Godfather* as well as recent success like *The Lord of the Rings: The Two Towers*, this book provides a vivid and engaging interpretation of how Hollywood moviemakers have created a vigorous, resourceful tradition of cinematic storytelling that continues to engage audiences around the world.
